Email

avareynolds@gmail.com

Address

123 Anywhere St., Any City

Education

Bachelor of Science in Computer Science

MIT

2016 – 2020

BA Sales and Commerce

Wardiere University

2020 – 2023

Skills

- programming
- Python
- C++
- Java
- Ethical hacking
- Problem-Solving
- Time Management
- networks

Language

- English
- French

AVA REYNOLDS

Senior Software Engineer

About me

Innovative developer with a passion for artificial intelligence, quantum computing, and space exploration technologies. With over 9 years of experience in software development, data science, and cloud architecture, Ava has contributed to cutting-edge projects in AI-driven satellite navigation and astronomical data processing.

Professional Experience

2019

–

2021

Lead AI Engineer

AstroTech Innovations

- designing machine learning models for autonomous satellites and deep space navigation systems. I served as a Full-Stack Developer at OrbitSoft, where I developed scalable platforms for astronomical data analysis, leveraging cloud computing and advanced programming techniques.

2017

–

2019

Software Developer

TechLife

- Skills included software development, machine learning, quantum algorithms, data science, and cloud architecture. I thrived in innovative, technology-driven environment and I am always looking toward the future of engineering and space research.
