PROFILE

Mining Engineer with a strong background in resource extraction, geological assessment, and project management. Skilled in designing safe and efficient mining operations, optimizing production processes, and ensuring compliance with environmental and safety regulations. Passionate about sustainable mining practices and delivering cost-effective solutions in both open-pit and underground environments.

WORK EXPERIENCE

- Mystique Mountains Lodge2030 - PRESENT
Tour Guide
 - Led daily guided tours for groups of up to 25 guests, covering local wildlife, cultural history, and scenic landmarks. Delivered engaging presentations, ensured guest safety, and coordinated logistics to provide memorable outdoor experiences.
- Survival Instructor2025 - 2029
Twin Eagles Wilderness
 - Conducted hands-on survival training programs focused on bushcraft, navigation, and emergency preparedness. Designed and delivered customized courses for students, corporate groups, and adventure travelers, emphasizing safety and confidence in remote environments.
